

# Deck Cleaner

Quick  
Simple  
Effective

## THANKS FOR CHOOSING DECK QSE!

DECK QSE is an EZ-Pouch which cleans 1000 sq ft.

Clean your Deck in three easy steps:

1. Ready 2. Clean 3. Rinse

Unfold for Directions

## 1. READY

### Choose an Ideal Day

- Temp over 45°
- No rain while applying
- Low or no wind

### Get the Gear

- 2 gallon pump up sprayer
- 5 gallon mixing bucket
- Rubber gloves
- Safety goggles or face shield

### Mixing Deck Cleaner QSE

1. Wear gloves, boots, goggles, long sleeves and long pants
2. Mix in well ventilated area
3. Fill bucket with 2 gallons of water
4. Open EZ-Pouch, pour slowly into water while stirring
5. Add 3 more gallons of water (now you have 5 gallons)
6. Mix until dissolved
7. Pour into pump sprayer

## 2. CLEAN

### Application Strategy

Soak surrounding plants as a precaution both before applying deck **cleaner** and after rinsing

- Over soaking may waste cleaner and result in less coverage
- Do not allow cleaner to come in contact with paint or rubber

### Apply Deck Cleaner QSE

1. Soak decking to the point when the cleaner is just about to run
2. Soak for at least 25 minutes
3. Keep deck damp while waiting (If deck dries, mist with clean water to reactivate cleaner)
4. Cleaner only works when **WET**

## 3. RINSE

### Rinsing shows the results!

Stains must be rinsed away to reveal clean deck underneath!

### Rinse to reveal a clean deck

1. Garden hose tight jet stream  
**or**  
Pressure washer fan spray tip (keep pressure under 200psi, if using a 3000psi rig, a spray 20in wide is **safe**)
2. Heavy stains need to have a jet of water **within 6 inches** of the stain to dislodge the stain residue
3. On stubborn stains, wipe with a soft bristle brush (similar to brushes used at a Car Wash)
4. Rinse with a final flood of water

**Rinsing is essential!**  
**Until the old stains are rinsed away, the clean deck may remain hidden**

## HINTS / TIPS

- Pump Up garden sprayers allow for a proper mix of cleaner, and greater control during application.
- Avoid using hose end sprayers as the cleaner will be over diluted, and the cleaner could splash you
- Rinse at an Angle to prevent the cleaner from splashing back on you.
- Deck QSE doesn't remove metal or mineral stains
- Avoid getting cleaner on ANYTHING other than the deck (including painted or rubber surfaces)
- Great for use on composite decking too!

## COMMON SENSE CAUTIONS

**It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**

*Read and follow ALL safety information contained on this label and in the MSDS. Manufacturer's warranty is limited to purchase price. No other guarantee is given or implied. **User Assumes all risk.***

### CONTAINS

Wetting agents, sodium hydroxide and proprietary surfactant blends.

### WARNINGS
