

# RoofOX

## THANKS FOR CHOOSING ROOF OX!

Roof OX EZ-Pouch = 375 sq ft coverage  
Number of pouches depends on the product  
(Sample=2, 1500=4, 3000=8, 4500=12)

Unfold for Directions

### HAVE A CLEAN ROOF FOREVER!

Roof OX is the first step. After you spend the time and energy to clean your roof, protect your investment with annual Roof Armor applications!

Roof Armor eliminates the algae that forms the ugly roof stains and does not require rinsing. Applying Roof Armor every 12 months breaks the stain cycle and your roof stays clean... **Forever!**

## 1. READY

### Choose an Ideal Day:

- ◆ Not under freezing within 6 hours
- ◆ No rain while applying
- ◆ Low or no wind

### Mixing Roof OX:

Use gloves and eye protection when handling Roof OX

### Pump-Up Garden Sprayer (Best):

- ◆ Use a 5 gallon bucket
- ◆ Add 2 gallons of **HOT** water
- ◆ Slowly add 1 (one) OX EZ-Pouch
- ◆ Stir until dissolved
- ◆ Allow 10 minutes to activate
- ◆ Pour into pump-up sprayer

### Cleaner Today Pro-Applicator:

- ◆ Follow GREEN Pro-Applicator Instruction sheet included

### Pressure washer soap injector:

- ◆ Fill bucket with 1/2 gallon water
- ◆ Slowly add 2 (two) OX EZ-Pouches
- ◆ Mix until dissolved, wait 10 minutes
- ◆ Assumes 7:1 mix ratio, for 15:1 ratio use 4 OX EZ pouches
- ◆ Use soap / chemical Tip (Black)

## 2. APPLY

### Application Strategy:

- ◆ Work in 12' x 15' sections
- ◆ Apply to dry shingles
- ◆ Heavy stains may require a 2nd coat

### From on the roof (Best):

- ◆ Start at the bottom row of shingles
- ◆ Work up the roof to the ridge line

### From the gutter level:

- ◆ Target highest point of roof line
- ◆ Work your way down to gutters

→ Soak the shingles to the point where the solution is just about to run

→ Soaking the shingle is essential to penetrate and loosen the stain

→ Over applying to shingles may waste cleaner resulting in less coverage

→ Allow to soak for at least 25 min (Be patient this is the cleaning time)

→ If shingles dry, mist with water to reactivate cleaner;  
Cleaner only works when **WET**

## 3. RINSE

**Rinsing is essential!**  
**Until the stains are rinsed away, the clean roof may remain hidden**

### From on the roof (Best):

- ◆ Garden hose tight jet stream (don't use fan or wide spray, it won't have enough rinse intensity to remove stains)

**or**

Pressure washer with fan spray tip (always keep pressure under 200psi, if using a 3000psi rig, a spray 20in wide is a **safe** 150psi when the spray hits the shingles)

- ◆ Start at the ridge line and rinse down to gutters

- ◆ Heavy stains may need a jet of water **within 12 inches** to dislodge the stain residue

- ◆ For stubborn stains, wipe with a soft bristle car brush to agitate stains (similar to brushes used at a Car Wash, this type brush is soft and will not disturb roof granules)

### From the gutter level:

- ◆ Rinsing from gutter level may not provide a rinse intensity sufficient to remove stains
- ◆ The next 5" of rain will help rinse more of the stains away

## HINTS / TIPS

- ⇒ 'Clean Roof Forever' with **Roof Armor** to prevent stain re-growth
  - ⇒ If you have **Roof Armor** follow tan **Roof Armor**
  - ⇒ If you do not have **Roof Armor**, it's not too late to order!
- ⇒ Roof OX is a homeowner grade product, for stubborn stains, order **Roof QSE**
- ⇒ Do not use hose end ( 'miracle grow' ) applicators, only the Cleaner Today Pro-Applicator has the correct mix ratios.
- ⇒ BEST results are from applying and rinsing from the roof; Good results can be obtained from the gutter line, but heavy stains will longer to fade
- ⇒ Heavy stains / older roofs may have shadows of stains caused by the roof having been covered by the stain for years; this is common and unavoidable.
- ⇒ Roof OX will not remove stains caused by rust, minerals, or metals

## COMMON SENSE CAUTIONS

DOES NOT CONTAIN ACIDS, BLEACH, HYDROXIDES, PHOSPHATES OR SOLVENTS

**It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**

*Read and follow ALL safety information contained on this label and in the MSDS. Manufacturer's warranty is limited to purchase price. No other guarantee is given or implied. User Assumes all risk.*

**CONTAINS:** Wetting agents, sodium carbonate peroxyhydrate and proprietary surfactant blends.

### WARNINGS: Irritant

If in Eyes: Irritant: Hold eye open and rinse with water for 15 minutes. If discomfort persists call a doctor for treatment advice.

If swallowed: If swallowed give large amounts of water followed by citrus juice or diluted vinegar. Call a doctor for treatment advice.
