

## Thanks for using Siding OX!

Siding OX comes in 4 EZ-Pouches.  
Each pouch covers 500 sq ft.

The pouches are designed to be used individually,  
enabling you to clean at your own pace.

Clean your siding in three easy steps:  
1. Ready 2. Clean 3. Rinse.

Unfold for Directions 

### 1. READY

#### Choose an Ideal Day

- Temp over 45°
- No rain while applying
- Low or no wind

#### Get the Gear

- Pressurized pump sprayer
- 5 gallon mixing bucket
- Rubber gloves

#### Mixing Siding OX

1. Put 2.5 gallons of HOT water into a **5** gallon bucket
2. Open 1 (one) OX EZ-Pouch, pour slowly into water
3. Mix until dissolved
4. Allow 10 minutes to activate
5. Fill 2 gallon pump up sprayer

### 2. CLEAN

#### Application Strategy

- Work in 12' x 15' sections
- Siding should be cool (if siding is hot mist with water)
- Soaking the siding is essential to penetrate the stain
- Thick stains may require a 2nd treatment
- The longer the cleaner soaks, the better the clean

#### Apply Siding OX Cleaner

1. Start at the top of the section
2. Soak siding to the point where the cleaner is just about to run
3. Continue down to ground level
4. Soak for at least 30 minutes (This is when the cleaning happens, be patient)
5. Keep siding damp while waiting (If siding dries, mist with water to reactivate cleaner)
6. Cleaner only works when WET

### 3. RINSE

#### Rinsing shows the results!

Stains must be rinsed away,  
to reveal clean siding underneath!

#### Rinse to reveal clean Siding

1. Garden hose tight jet stream (a fan or wide spray may not have enough rinse intensity to remove stains)  
**or**  
Pressure washer fan spray tip (keep pressure under 200psi, if using a 3000psi rig, a spray 20in wide is **safe**)
2. Start from the top and work your way down
3. Heavy stains will need the jet of water **within 6"** of the stain to dislodge the stain residue.
4. On stubborn stains, wipe with a soft bristle brush (similar to brushes used at a Car Wash)
5. Rinse a final flood of water

**Rinsing is essential!**  
**Until the stains are rinsed away,**  
**clean siding may remain hidden**

### Hints / Tips

- Heavy stains, or very old siding may have shadows of stains caused by the siding being covered by the stain for years  
This is normal, and may require 2nd treatment
- Siding OX will not remove rust or mineral stains
- HOSE END SPRAYERS are NOT calibrated for our cleaner, only use our Hose End Pro-Applicator.
- Cleaner Today Pro-Applicator Mixing Instructions: Fill Container 1/2 full, Pour in 1 OX EZ pouch, Stir until dissolved, fill water to top, Wait 5 minutes, and Set DIAL to 'E' and spray.

### Common Sense Cautions

**It is a violation of Federal law  
to use this product in a manner inconsistent with its labeling.**

*Read and follow ALL safety information contained on this label and in the MSDS. Manufacturer's warranty is limited to purchase price. No other guarantee is given or implied. **User Assumes all risk.***

#### CONTAINS

Wetting agents, sodium carbonate peroxyhydrate  
and proprietary surfactant blends.

#### WARNINGS

If in Eyes:

Irritant: Hold eye open and rinse with water for 15 minutes.  
If discomfort persists call a doctor for treatment advice.

If swallowed:

If swallowed give large amounts of water followed by  
citrus juice or diluted vinegar. Call a doctor for treatment advice.
